April 23, 2020

To those staff who support DSP participants:

I'd like to take this opportunity to thank all our workers in both residential and community settings who are supporting individuals with disabilities.

Whether it's supporting participants in small option homes, larger settings, or alternate family settings, you continue to provide care and services that participants depend and rely on. Your expertise and commitment provide important and appreciated supports for many vulnerable Nova Scotians during this challenging time.

I know you continue to go to work every day because you care about the people you help. You've always provided extraordinary care for our participants but even more so now. For that, I and many other Nova Scotians are most grateful.

Thank you for your compassion and your commitment. Your dedication has not gone unnoticed.

Sincerely,

A handwritten signature in cursive script that reads "Kelly Regan".

Honourable Kelly Regan
Minister of Community Services
